About CW WebDesign

CW WebDesign is a division of Martin Photography in Junction City WI. and has developed and grown though years of building websites using CMS software. With 10+ years of experience, we believe we can help with your website needs. We have created websites for many different groups, clubs and organizations with about 20 websites actively maintained by CW WebDesign / Martin Photography. Feel free to follow any of the links found at the bottom of of our web page, www.cwwebdesign.com to check out some of our work.

Please note that we design and build websites using a template based software that we can then tailor to your needs, we do not do web development or coding from the ground up.

Service and Pricing

The websites we design and build are a good fit for a small business, club, group or organization and are priced accordingly. While we build great, functional, responsive websites, they do have their limitations and we would be happy to discuss options with you for your website needs to see if our product would be a good fit for you. Currently, we are utilizing an online program to build websites as it is a good, reliable software that offers all of the elements needed for todays websites including mobile friendly, responsive options and very good SEO and Keyword tools, functionality and support. One thing **not offered** by us is custom coding, but this software if very comprehensive and capable of robust websites on its own.

All websites start with a template design and are then tailored to fit your needs. The look and feel of your website will be discussed prior to beginning the building process to determine what type of content you would like placed on the website, i.e. specific content, color schemes, logos, pictures, documents and more. With all of this in mind, let the process begin!

Pricing is based on an initial 5 pages of content and then for each additional page, there will be a small fee. Typical standard pages include a Home Page, About Us, Contact, Products or Services and Photo Gallery but can be pretty much anything you would need. Payment for initial build is due prior to work beginning with 50% down and balance due upon launch of site.

Breakdown of Pricing

- Up to five initial pages - $750.00 (one time, initial set up fee)
- Each additional page - $25.00 per page (can be added at any time)
- Annual website maintenance fee - $150.00 per year (includes weekly updates if needed)
- Website Hosting - approximately $150.00 per year (discounts for 2 years of hosting)*****
- Domain, Privacy and Registar approximately $20.00 - $40.00 per year*****
